CAREER OBJECTIVE

A front end developer. that have 4 years of hands-on experience efficiently coding websites and applications using modern HTML, CSS, and JavaScript.

Building state-of-the-art, easy to use, user-friendly websites and applications is truly a passion of mine and I am confident I would be an excellent addition to your organization. In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements. also with proven experience at YPC and Davuptech in helping companies create and maintain a better code base for reusability. Passionate about learning and development with a desire to apply skills on a larger development team. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

WORK EXPERIENCE

Front-End Developer

YPC

May 2018 - June 2021 / Remote

- Developed membership, event, and legal platform technology solutions, and automated internal processes.
- Generated \$50K+ in annual ad revenue as a system administrator of a large network of websites.
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Mentored 6 team members, enabling them to achieve professional growth and personal goals.
- Overhauled the UI for an Internal tool to refund the customers which helped the customer experience team improve refund speed by 24%
- Coached 4 junior designers in ARIA and A11y accessibility standards. This lead to 100% of projects created to be accessible for all disabled users.

Front end developer

Davuptech

July 2021 - current / remote

- Developed real estate valuation, analytics, and platform technology solutions as part of a 5-person team.
- Designed and developed Zestimate, which manages a volume of 600k+ valuations per month.
- Reduced average valuation review time by 46%, and saved service providers an average of 84% due to click-fee reductions.
- Rebuilt 4-year-old web application with full user experience redesign to release a beta version in 8 months.
- Created non-technical descriptions of operations and workflow to enable non-coding team to function with minimal interruption.
- Created accessible, responsive, and functional user interfaces to allow visitors on any device to have the same perfect user experience. This process increased number of 5 star UX/UI reviews by 135%.
- Developed user interfaces with modern JavaScript, HTML5, and CSS3, which improved user satisfaction by 31%.
